

Fatshark Dominator V3 Goggles \$300

Contact John at jwyttsma@hotmail.com

Fat Shark's Dominator V3 goggles bring affordable digital video and a wide feature set to FPV flying.

This headset features a modular design, allowing pilots to customize receiver modules and head trackers to stay on the cutting edge.

Record FPV footage with the included DVR, and use the Dominator's modular bays for a wide range of analog video receivers and the Trinity head tracker.

Comes with charging cable and battery.

Supporting HDMI-in at 720p and with a 16:9 WVGA image, the Dominator V3 can handle both digital and analog inputs with ease, making it a flexible and powerful headset for both casual and professional pilots.

NOTE: HDMI cables and adapters are sold separately.
